# Mas, como fazer ritos tais como scrum poker ou retro ?

## Fun Retro

Prime Directive | Star 540 | Import CSV | Export board | New board

### Retro - Maracatu Team

Sort by Votes | Filter your cards

Delete board | Delete cards | New column

Set the context of the retrospective here...

Worked Well/Can't control	Worked Well/Can control	Didn't work so well/Can't control	Didn't work so well/Can control	Action Items
<p>Fabio always helps a lot with the technical context. Fabio and Ryan did a great job working on the integration of CNS with the other services.</p> <p>7</p>	<p>Amazing work ethic of the whole Recife team during some dark times in the middle of the project.</p> <p>8</p>	<p>We were forced to use one V1 board that aligned to the entire project. Caused confusion on actual progress. Board shared. Version one is awful. Board shared with another team. Version One shared with other teams. Team didn't participate on the board creation (doesn't reflect our definition of done for the work).</p> <p>10</p>	<p>Daily update sent by email was really painful. Low participation on the stand-ups on the start of the project. Meetings attendance, mostly at the project's beginning made it hard to get everybody on the same page and make sense of things. We were alone on stand ups for a while. Stand ups were occurring without involvement of all HBC members.</p> <p>8</p>	<p>Use JIRA. Use epics to have visibility of vertical slices of work across different teams.</p> <p>0</p>
<p>Trip to NY. Trip to New York improved communication and group integration.</p> <p>7</p>	<p>BA on the team to pair with the PO. Amanda was able to pitch in for BA work. TW Investment in BA.</p> <p>7</p>			<p>At remote meetings, favor attendance on individual machines then on meeting rooms.</p> <p>0</p>
				<p>Identify Stakeholders at the beginning of the project. Something like a session to understand roles and responsibilities of the</p> <p>0</p>
